

IN THE SPECIFICATION:

Please delete the Substitute Specification set forth in the Appendix to the Amendment filed October 15, 2003, wherein in this Amendment filed October 15, 2003, the original specification was deleted in its entirety, and substitute therefor the enclosed Further Substitute Specification set forth in the Appendix.

Please delete the new Abstract enclosed with the Amendment filed October 15, 2003, and substitute therefor the enclosed further new Abstract, set forth in the Appendix attached hereto, following the Further Substitute Specification.

Please delete the amended title set forth in the Amendment filed October 15, 2003, and substitute therefor the following new title:

--SYSTEM HAVING AN ELECTRIC DEVICE WHICH FUNCTIONS BOTH AS AN ELECTRIC MOTOR FOR DRIVING MACHINES AND AS A GENERATOR TO GENERATE ELECTRICAL POWER, AND HAVING A POWER SOURCE FOR DRIVING THE ELECTRIC DEVICE.--

AMENDMENTS TO THE DRAWINGS:

Please substitute the Replacement Drawings in the attached Appendix for previously submitted Replacement Drawings. The presently submitted Replacement Drawings include Replacement Drawings for Figs. 1A and 1B, 2A and 2B, 8A and 8B, and 16A and 16B. In these presently submitted Replacement Drawings, the legend "PRIOR ART" has been inserted to each of Figs. 1A, 2A, 8B and 16B. Noting the Brief Description of the Drawings on pages 5-9 of the original application papers for the above-identified application, among other pages, clearly, the present amendments to the drawings do not constitute new matter.

In addition, clearly, upon substitution of the replacement pages as enclosed herewith, the objection to the drawings as set forth in Item 2 on page 2 of the Office Action mailed December 11, 2003, is moot.
